PREFACE

GENERAL

This Administration Policy Manual contains the policies governing the operation of The Glen Community Association.

It is the responsibility of each manual holder to keep his/her manual current at all times, recording all amendments immediately upon notification via the Pipeline or other means of communication. Once yearly, following approval and notification of one or more amendments, updated manuals will be available in The Glen Community Association Office.

LIST OF AMENDMENT APPROVALS

All amendments and additions to these Administration Policies are made by Resolution and are approved by The Glen Community Association Board of Directors. All amendments are made by Policy Number rather than by page number. However, for convenience, each page will carry the date of adoption or the designation of the Resolution under which the policy was adopted plus the designation of the latest amending Resolution. Each Resolution is identified with an alpha-numeric designation consisting of the letter "A" for Administration and six digits representing the month, day, and year of the Board of Directors approval. A complete list of amendments is located at the end of this Administration Policy Manual.

ADDITIONAL INFORMATION

A130 – FINANCIAL OPERATING POLICIES

A130.1 RESERVE INVESTMENT POLICY - 2012 (Resolution 120812)

The Board of Directors desires to manage reserve assets in a prudent and fiscally responsibility manner.

GOALS AND OBJECTIVES

The responsibility/recommendations for the operation of the Reserve Study Investment Policy falls solely on the Finance committee as a sub-committee of the BODs who will invest the Association’s reserve assets in an effort to achieve the following prioritized objectives:

- Promote and assure the preservation of the principal;
- Structure maturities to ensure that assets will be liquid for anticipated needs;
- Achieve long-term investment performance appropriate for the asset classes selected.

INVESTMENT STRATEGY – LIQUID PORTION

On a quarterly basis, review the Association’s reserve schedule for the upcoming quarter. During each quarter, place and maintain in liquid accounts an amount equal to the expected expenditures. This amount shall be defined as the base liquid portion. The establishment of a “liquid portion” amount will be done by a recommendation of the Finance committee and then voted on by the BOD. Note: All changes to this formula must be approved by the BOD.

INVESTMENT STRATEGY – NON-LIQUID PORTION

Except for those funds, which will remain liquid, it is expected that assets will be invested in non-liquid assets as follows:

- **Laddering Strategy**
Select individual securities that have maturities of one to five years. Structure these maturities so that the asset (maturing security) matches the liability (reserve expenditures). If the funds or any portion of the funds are not required then they are to be reinvested in a new investment security to offset any future year that has a short fall based on the current best interest rates. The finance committee will report out the status of the investments at least quarterly. The Finance committee will structure the laddering strategy and bring investment recommendations to the BOD for approval.

**The Glen Community Association
Administration Policies**

- **New Funds**

Funds collected over and above the liquid portion as stated above will be invested and/or combined with maturing securities that are not required for the fiscal year. The terms of the investments are to be established by a recommendation of the Finance Committee of the Association.

- **Security Classes Selected**

The following securities meet the Board's Goals and Objectives as stated:

- Certificates of deposit (CD's) deposited in a fully insured financial institution and covered by the Federal Deposit Insurance Corporation (FDIC)
National Credit Union Administration (NCUA)
- Any other fully insured deposit investment

Note: As the financial market changes the Finance committee may need to bring forward additional investment securities as additions to this list.

Control and Review

All investments will be purchased in the name of the Association.

The signatures and authority required for withdrawals or transfers of Reserve Assets will be determined by recommendations from the Finance Committee along with a written best practices letter with help from the Association's legal counsel and/or our auditor and then voted on by the BOD.

A130.2 RESERVE INVESTMENT POLICY – 2017 (Resolution 120917)

The Glen Community Association supplemented the Capital Reserve Investment Policy in 2017.

- The Glen Community Association has invested a portion of our Capital Reserve Fund (CRF) in a diversified account through the People's Bank/LPL, which require a minimum of two (2) American signers. (Canadians cannot be signers in brokered investment opportunities in the US).
- The GCA should solicit four (4) American signers to facilitate the prompt execution of business in the event of the unavailability of any one signer. The signers will not be able to make investment changes to the account. Only the Board of Director's (BOD) by formal motion recorded in Board meeting minutes can make any changes or decisions affecting the investment account.

**The Glen Community Association
Administration Policies**

A130.3 DEPRECIATION POLICY

The Internal Revenue Service (IRS) has ruled that items costing more than \$2500 including expenses that extend the life of an asset by twelve months or more shall be capitalized and therefore depreciated, but only if Operating Funds are used. There are also attractive items that are purchased from Operating Funds at a cost of less than \$2500 that can be capitalized and depreciated. This list would include individual computers/monitors, cameras, video cameras, photocopiers and other attractive items. Although this type of purchase is below the IRS threshold for capitalization and depreciation, these items should be included on the Glen Inventory and then depreciated based on their useful life for that category of asset.

It is important to note that Capital Funds are to be used to replace items identified in the Reserve Study and any expense paid for from Capital Funds can not be depreciated. All items purchased with Capital Funds are a direct expense and although they are inventoried, they can not be depreciated.

A130.4 CONTRACTOR SERVICES AND PAYMENT POLICY

130.4.1 If services are contracted to an outside agency and the project cost is expected to be more than \$15,000.00, a minimum of three (3) sealed bids shall be obtained and presented to the appropriate Committee Chair. If it is not possible to obtain three (3) bids, a written explanation shall be presented to the Board. The board may waive the requirement to obtain three bids on a project-by-project basis.

130.4.2 Each project must have a complete and comprehensive list of specifications, including: work to be done, materials to be used, and a starting and estimated completion date.

130.4.3 When, upon approval by the Board of Directors, a bid is accepted, a detailed agreement shall be signed.

130.4.3.1 The agreement shall include the specifications bid on, any approved changes, and the method of payment.

130.4.3.2 Advance deposits shall not exceed fifty percent (50%) of the entire project cost, unless approved by the Board of Directors.

130.4.3.3 Completion payments of holdback money shall be fifteen percent (15%) of the entire project cost and will be paid fifteen (15) days after Management and the Board of Directors have approved the work.

**The Glen Community Association
Administration Policies**

130.4.3.4 Management and The Board of Directors shall inspect the work within thirty (30) days following the contractor's request for final payment.

A130.4.4 If services are contracted to an outside agency where the project cost is not expected to exceed \$7,000.00, Management has the authority to proceed with any procedure for agency selection and payment method deemed appropriate, fair and consistent with standard business practices.

130.4.4.1 It is The Glen Association's policy to give first consideration to Whatcom County based agencies whenever feasible without sacrificing quality of workmanship and economy.

A130.5 SIGNATURE REQUIREMENTS FOR FINANCIAL OPERATING DOCUMENTS

130.5.1 All contracts and/or agreements approved by the Board of Directors shall be duly recorded in the meeting minutes. Two signature(s) is are required, either from the (President, Treasurer, General Manager) or another designated officer to endorse the contract or agreement.

130.5.2 For all items of a routine nature, such as payroll checks, payments for power, fuel, insurance, and operating supplies, the signatures of both The Glen Manager and another employee approved by the Board of Directors and recorded in the Board minutes, is required. In the event that either is unavailable, the other authorized employee and an Association Executive Officer may sign.

130.5.3 For all items over \$15,000.00 other than recurring operating-expenses two authorized Association Executive Officers are required to sign.
